

GreenDrive

eSATA & USB 2.0 Hard Drive

GreenDrive is Fantom Drive's answer to energy reduction and environmental responsibility by utilizing up to 40% less power without sacrificing performance.

The GreenDrive employs variable speed disk mechanisms that increase their rotational velocity in response to host demand, resulting in virtually no performance degradation vs. a 7200RPM disk.

Additionally, no lead is used in any component of the GreenDrive, making it Restriction of Hazardous Substances Directive (ROHS) as well as California Electronic Waste Recycling Act compliant. As a matter of fact, even the soy-based inks used to print the box are environmentally friendly.

Features:

- eSATA and USB 2.0 interface
- Blazing fast eSATA port
- PC & Mac compatible
- Quiet fan-free design
- Compact aluminum enclosure

GreenDrive

eSATA & USB 2.0 Hard Drive

SPECIFICATIONS

Form Factor:	External hard drive
Capacity:	500GB, 1TB, 2TB
System Requirements:	PC compatible computer/Power Mac with available USB or eSATA port
Bus Speed:	Up to 480Mbit/s (USB 2.0) Up to 3Gbit/s (eSATA)
OS Support:	Windows 2000, XP, 2003, Vista Mac OSX > 10.3
Interface Ports:	USB 2.0, eSATA
Power Supply:	110/220 V (universal)
Weight:	2.4 lbs
Dimensions:	7.75" X 4.5" X 1.375"
Warranty:	2-year limited

PART NUMBER	CAPACITY	WARRANTY
GD500EU	500GB	2 Years
GD1000EU	1TB	2 Years
GD2000EU	2TB	2 Years

CONTENTS

1 GreenDrive, 1 Drive Stand, 1 USB 2.0 Cable, 1 Power Supply,
1 User Manual
